Learning methods

We understand that different people learn differently, so we've devised a series of delivery formats to suit all needs. Whether you prefer learning at your own pace through distance learning or enjoy the challenge and interaction in classroom-based learning we can provide a format you will be comfortable with.

Classroom-based training

Classroom training gives learners access to a world class expert and the ability to ask questions in real time. It helps those who feel more comfortable learning as a group. It promotes peer to peer learning which is a very powerful tool in the learning and development sphere. The accelerated learning techniques that our tutors utilize ensure that knowledge and skills are developed throughout your learning journey.

Virtual instructor led training

With BSI's live online training, you can take the same high-quality classroom course with the same expert tutor, simply delivered in a virtual environment, regardless of where you're located. You can even book a course that's dedicated to your organization, so a group of you can all train at the same time – from anywhere.

On-demand eLearning

Our eLearning courses are great for learners that need an introduction or refresher on a particular topic. eLearning is a self-directed, interactive learning experience - at a time, place, and pace that best suits you.

In-house training

An in-house training course is one held at your premises (or online) and is open only to your employees. Training in-house eliminates travel expenses and additional time away from the office. It also keeps your content and discussions confidential. Planning to train 3 or more of your colleagues? This could be the ideal solution for you.

Adaptive learning

Adaptive learning uses state of the art AI technology and high-quality video tutorials along with personalized learning analytics to support reflective practice. Delegates have access to training materials for 12 months meaning you can learn at a pace that is comfortable for you.

Welcome

At the BSI Academy, our focus is on supporting you to build knowledge and skills to add more value to your organization, whilst developing your career.

BSI Training Academy envisions becoming the most reliable learning institution, fostering client development. To achieve this, we prioritize adapting to global changes, offering a diverse range of courses, including 24/7 on-demand e-learning. With a focus on sustainability, health, safety, wellbeing, and digital trust, our high-qualified tutors provide virtual, face-to-face, or hybrid training.

Yonca Çakır

Training Director, IMETA

BSI Training Academy

Organizational learning

As your partner to progress, we work with organizations like yours to understand your objectives and how training and development creates success. We work with you to create training programmes which align with and meet your strategic objectives.

We excel at delivering training as an enterprise-wide solution – across multiple departments, sites and regions – using a blended mix of courses, qualifications and delivery methods.

As the creator of the world's leading standards, we offer the most comprehensive suite of management systems and business improvement training aimed at empowering your people, at any level, to increase productivity and enhance business performance.

Qualifications – explained

Qualifications from BSI – A mark of trust for your expertise.

Qualifications validate your expertise as you build a career in your chosen field.

We provide exciting and innovative qualifications, in a variety of subject areas to build your skills and knowledge.

Practitioner

A Practitioner qualification demonstrates your audit skills ensuring conformance and effectiveness. This qualification shows your commitment to your profession and career projection.

Professional

A Professional qualification builds on learning from the practitioner stage. As a Professional you demonstrate your higher-level skills, critical thinking skills and demonstrate your competence and career aspirations.

Certified Professional

By becoming a Certified Professional you show you have reached the pinnacle of your learning, with trusted credentials which are aligned to the most senior roles in your organization.

Subject Areas

- Digital trust
- Health, safety & wellbeing
- Quality & business improvement
- Sustainability
- Governance, risk & compliance
- Food
- Built environment
- Medical devices

Client stories

Restore Digital

Restore Digital, the largest UK owned records management company, has built a culture of quality and continuous improvement, underpinned by outstanding internal auditor training programmes from BSI. Simon Morgan explains how partnering with BSI has brought expertise, experience, and confidence to their internal auditors.

Coca Cola Enterprises

Read about how since receiving Lean Six Sigma training from BSI, Coca Cola have climbed 39 places in "UK top 50 Call Centres", achieved 3rd place for most improved UK Call Centre and improved their end-to-end customer experience.

Glasgow airport

Head of Assurance, Gillies Crichton, attended an ISO 22301 (Business Continuity Management) Lead Auditor training course with us which helped him to conduct audits in a more efficient way, meaning the organization can be confident that their business continuity plans are up to scratch.

The AA

One of Britain's most well-known organizations, The AA has completed several programmes with BSI Training. The AA identified six distinctive characteristics of BSI's training for their management systems standards. Read Mark Braham, Head of Business Assurance at the AA, describe the AA's learning journey and discover why he chose BSI.

Nipon Gohsei

After undertaking Lean Six Sigma training with BSI the benefits gained were immediately apparent. With qualified members of staff sharing a common understanding of improvement tools, they were able to apply them to the business from everyday problem solving to critical projects.
