### **Survey on the monitoring of availability of medical devices on the EU market**

The EU Commission released the second survey round to support the monitoring of the availability of medical devices on the EU market in the context of the implementation of regulations on medical devices and IVDs.

BSI encourages medical devices and IVDs manufacturers, authorised representatives, importers and distributors to take the survey. Your feedback is pivotal to support the decision-making process of EU medical device regulators.

## Structured Dialogue with BSI

BSI has been offering Structured Dialogue for over 20 years while fully respecting the independence and impartiality of the Notified Body.

Whether you're looking to discuss high-level aspects of evidence of conformity, Notified Body assessment procedures, QMS requirements, or more complex combination of clinical, technical, and regulatory conformity approaches, request Structured Dialogue with BSI today.

## Software as a Medical Device

As an SaMD manufacturer, it's essential to ensure your product meets all regulatory requirements before market launch.

Choosing an EU Notified Body or UK Approved Body with industry expertise is crucial. Here at BSI, our dedicated SaMD team has deep knowledge in AI, software development and cybersecurity and is ready to walk you through your conformity journey.

Take a look at our SaMD brochure and webpage.

Published recommendations suggest  
path to fairer and safer medical AI

The **STANDING Together** initiative has published internationally agreed recommendations in top medical journals, including [The Lancet Digital Health](#), aiming to reduce bias in medical AI technologies and improve their fairness.

Co-authored by BSI's Vishal Thakker, the guidance emphasizes using diverse, inclusive [datasets](#) and identifies potential biases to build AI healthcare technologies.

Experts from 58 countries, led by the University of Birmingham, aim to make medical AI safer and more equitable, ensuring benefits reach all patient communities.
